The ALL-NEW 'Standard Lo-Pro Hopper' for 8” and 10” models is our newly developed ‘Single Screw Low-Profile Hopper’. The hopper design utilizes our Flexible Hopper Coupler box to maintain an overall low hopper height of 10-1/2”, a single hopper flight specifically designed to match the high capacity of the main Swing Away auger, plus a large hopper profile of 33-1/4” x 60” for 8” hoppers or 38-1/2” x 60” for all 10” hoppers. The optional 12” Low-Profile Hopper continues to be a twin screw model. All hoppers and their associated incline augers are of 1/4” flight standard.

For transport, the Swing Away Flex Hopper can be placed on either the right or left side of the main auger. The lift arm can quickly be switched to the other side of the main auger. The Flex Hopper is transported in a near vertical position for ease of clean out and to keep moisture from accumulating in the hopper.

For transport, the Swing Away Flex Hopper can also be placed on the right or left side of the main auger. The lift arm can quickly be switched to the other side of the main auger. The Flex Hopper is transported in a near vertical position for ease of clean out and to keep moisture from accumulating in the hopper.

The Mayrath Flex Angle design is unique in the industry, allowing the hopper to remain almost horizontal regardless of auger operating angle. The hinged cover permits easy service to the U-Joint.

Mayrath - Swing-Away Portables make your job easier!

Let your tractor do the raising, positioning, lowering, and transporting with Mayrath Swing-Away Augers.

8", 10" and 12" Features

- Available in durable GALVANIZED or powdercoated finish.
- The Swing-Away Flex-Hopper is secured to either side of the main tube for transport.
- All drive components enclosed in oil bath housings.
- Relief door in swing out hopper is secured by spring-loaded clips to protect the main auger from overloading.
- The 10" x 82' model features 12 gauge housing and 35R drive line as standard equipment.

DIA. CAPACITY LENGTHS
8" 3200 BPH 52', 62', 72'
10" 4500 BPH 52', 62', 72, 82'
12" 7000 BPH 62', 72', 82'

Maximum-protection safety equipment is part of every unit.
**HOPPER OPTIONS & FEATURES**

**LOW-PROFILE HOPPER**

The ALL-NEW ‘Standard Lo-Pro Hopper’ for 8" and 10" models is our newly developed "Single Screw Low-Profile Hopper". The hopper design utilizes our Flexible Hopper Coupler box to maintain an overall hopper height of 10-1/2", a single hopper flight specifically designed to match the high capacity of the main Swing Away auger, plus a large hopper profile of 33-1/2" x 60" for 8" hoppers or 38-1/2" x 60" for all 10" hoppers. The optional 12" Lo-Profile Hopper continues to be a twin screw model. All hoppers and their associated incline augers are of 1/4" flight standard.

**SWING-AWAY AUGER**

**OPERATING HEIGHTS AND GENERAL DIMENSIONS**

**8" & 10" DIMENSIONS**

**SWING-AWAY HOPPER DIMENSIONS**

The Swing Away Flex Hopper can be operated on either side of the main auger or in line with the auger when utilizing the optional side drive kit.

**LOW-PROFILE HOPPER**

For transport, the Swing Away Flex Hopper can be placed on either the right or left side of the main auger. The lift arm can quickly be switched to the other side of the main auger. The Flex Hopper is transported in a near vertical position for ease of clean out and to keep moisture from accumulating in the hopper.

**Flex Angle**

The Mayrath Flex Angle design is unique in the industry, allowing the hopper to remain almost horizontal regardless of auger operating angle. The hinged cover permits easy service to the U-Joint.

**12" STANDARD SWING-OUT HOPPER**

**12" OPTIONAL LOW-PROFILE HOPPER**

**For Gear Drive Swing-Away**

*IMPORTANT: Keep all cables and safety devices in place at all times. Observe all safety signs and warnings shown on the product and in the operator’s manual. Mayrath reserves the right to change design and/or specifications without notice or obligation.*
